

In this regard, Applicants' patent application transmission document, as well as the filing receipt, notes that the instant application is a continuation of U.S. Patent Application Serial No. 09/067,922 which is a continuation of U.S. Patent Application Serial No. 08/479,688, which is a Divisional of U.S. Patent Application No. 08/122,047. U.S. Patent Application Serial No. 08/122,047, now U.S. Patent No. 5,486,286, as the Patent Office will note upon its review, states that it is a divisional of U.S. Serial No. 07/688,174. Thus, the amendment does not add new matter.

Respectfully submitted,

(Reg. No. 30,142)
